ing made up of one representative
from each congressional district, and
the second with a similar represen-

After appointing the following
committees the democratic conven-

Baltimore; and expressing confi-
dence in the leadership of William
Jennings Bryan.

Condemning unnecessary multi-
plying commissions and appointive of-

HYDROPLANE IS WRECKED IN LAKE

CHICAGO, Sept. 17.—A Curtiss hydroplane was wrecked in Lake Michigan off the North Shore today, when Albert J. Engle of Cleveland, Ohio, was attempting to fly to Grant Park for the aviation events which begin there tomorrow. Engle was rescued by tugs after a boat from the life saving station had failed to locate him. He had started to lift the machine out of the water but the wind and the high sea snapped three wires and the disabled machine was whipped about by the waves for several minutes before the tugs reached it.

When ministers and public officials are able to please everybody the millennium will be at hand.

AMERICAN SAILORS ATTACKED BY MOB

BLUEFIELDS, Nicaragua, Sept. 17.—American blue jackets from the gunboat Tacoma were fired on in the street today by an anti-American mob engaged in celebrating the Central American independence day. Serious trouble was threatened for a time. Lieut. Lowell, commanding the landing force of marines, rushed marines to the scene of the break immediately and scattered the mob. The marines have since patrolled the streets and prevented crowds from gathering. The situation is still critical.

That part of the recent crop of college graduates which landed jobs, has begun to discard the feeling of superiority to some extent.

NORTH DAKOTA IN GRIP OF FROST

FARGO, N. D., Sept. 17.—The official minimum temperature at Fargo Sunday night was 32 degrees. There are traces of ice on the sidewalks, and heavy frost all over the state, but farmers say it has done little damage, as all vegetation was wet following the rains.

10,000 GREET COLONEL.

SANTA BARBARA, Cal., Sept. 17.—Ten thousand persons waving handkerchiefs greeted Col. Roosevelt when his train pulled into the station here at noon today. In a ten minute speech, the bull moose denounced what he called President Taft's refusal to carry out the planks of his platform and criticized the democratic platform.

The colonel lauded the progressive leaders in California, saying that if any proved unworthy, he (Roosevelt) would personally take the stump against them.

The colonel spoke ten minutes at Ventura. He will reach Los Angeles at 3 p. m.

A critical situation—the dramatic editor's.

Recovered From Severe Lung Trouble

While we all know that plenty of fresh air and good food are necessary to persons suffering from lung trouble, something more is needed to bring about full health. Eckman's Alternative is a medicine for throat and lung troubles, and so many reports have been received showing that it brought about good results in a number of cases which were declared hopeless, that all sufferers who are not benefitting otherwise should at least investigate what it has done for others. It may be the means of restoring you to health. Investigate this case:—

Madison Lake, Minn.
"Gentlemen:—In December, 1908, and March, 1909, I was taken with hemorrhages of the lungs which confined me several weeks, each time to my bed. These left me very weak and I coughed at nights and could not sleep. My appetite also failed me. My doctor advised me to go West. So, in September, 1909, I planned to go, but I had four more hemorrhages, which put me in bed for three weeks.

"In November I started for Denver, Colo. After my arrival I met Michael Brody, who, upon learning of my condition, urged me to take Eckman's Alternative. In about two months I began to feel better. I kept on taking the medicine and improved fast. In March, 1910, I returned home. I think I am entirely well, have a good appetite and sleep well. When I left Denver my weight was 130 pounds. I now weigh 165, my normal weight. I thank God and your Alternative for my health. If I can help any other person suffering from Tuberculosis, I will gladly do so."

PAUL L. FASNAUGHT.
Eckman's Alternative is effective in Bronchitis, Asthma, Hay Fever, Throat and Lung Troubles, and in upbuilding the system. Does not contain poisons, opiates or habit-forming drugs. For sale by Geo. E. Marner, Chas. E. Benschlag and other leading druggists. Ask for booklet telling of recoveries, and write to Eckman Laboratory, Philadelphia, Pa., for additional evidence.

HIGH COST OF LIVING

Most Serious Problem of To-day, Due Largely to Sickness. Read This Letter.

Clifton Mills, Ky.—That the high cost of living is due largely to sickness, especially among the women folk, no one can doubt, but in the following letter from Mrs. Sylvania Woods, of this place, it is brought more forcibly home to us. "Before I began to take Cardui, the woman's tonic, my back and head would hurt so bad, day and night, I thought the pain would kill me. I was unable to attend to any of my household duties.

I had only taken three bottles of Cardui, when I began to feel like a new woman. Within a few months I gained 35 pounds, and now, I not only do all my own housework and washing, but, most of the time, run a big water mill, while my husband runs the farm.

I wish every suffering woman would give Cardui a trial, for I am sure it would help them, as it has me."

At an expense of \$3.00 for three bottles of Cardui, Mrs. Woods regained her health, and is now able to attend to the numerous duties, which, formerly, she either had to hire done, or neglect, thus increasing her cost of living.

Lady reader, are you suffering from any of the ailments so common to your sex? Wouldn't it be worth a few dollars to you to feel well enough to look after your daily work?

Try Cardui.

Persian Lamb Skins.

The trade in Persian lamb or astrakhan skins centers in Turkestan, and the traders of that country have the entire monopoly of it. They pasture the ewe lambs in immense flocks, and it has been found useless to try to acclimate these animals to any considerable change of climate. If they survive elsewhere, the skin undergoes degeneration and the fur consequently becomes less valuable.—Harper's Weekly.

All Are Ours.

We lament the hostility of circumstances and the elusive nature of opportunity; but if we are in the stream of power all circumstances are ours. The master of right living is keyed to his surroundings and lives as the rose opens to the sky and air. Study yourself, lay firm hold on the deep germs of angelhood, the folded blossoms of beauty, and bid them come forth!

"I wonder who really made up that original sextet we hear so much about?" "The original sextet was composed of Helen of Troy, Sappho, Cleopatra, Mme. du Barry, Lucretia Borgia and Delilah. They were all trouble-makers."—Louisville Courier-Journal.

Keeps Your Stove "Always Ready for Company"

A bright, clean, glossy stove is the joy and pride of every housekeeper. But it is hard to keep a stove nice and shiny unless Black Silk Stove Polish is used.

Here is the reason: Black Silk Stove Polish sticks right to the iron. It doesn't rub off or dust off. Its shine lasts four times longer than the shine of any other polish. You only need to polish once a month, or even once a year, yet your stove will be cleaner, brighter and better looking than it has been since you first bought it. Use

BLACK SILK STOVE POLISH

on your parlor stove, kitchen stove or gas stove. Get a can from your hardware or stove dealer. If you do not find it better than any other stove polish you have ever used before, your dealer is authorized to refund your money. But we guarantee you will agree with the thousands of other up-to-date women who are now using Black Silk Stove Polish and who say it is the "best stove polish ever made."

LIQUID OR PASTE ONE QUALITY

Be sure to get the genuine. Black Silk Stove Polish costs you no more than the ordinary kind. Keep your grates, registers, fondles and stove pipes bright and free from rusting by using BLACK SILK AIR-DRYING ENAMEL. Brush free with each can of enamel only. Use BLACK SILK METAL POLISH for silver ware, nickel, tinware or brass. It works quickly, easily, and leaves a brilliant surface. It has no equal for use on automobiles.

THIS COMMISSION HAS A BIG TASK

Among the constructive achieve-
ments of the recent session of con-
gress was the Hughes-Borah bill for
the creation of an industrial com-
mission to inquire into the relations
of labor and capital in this country.
In the bustle attending the end of
the session the fact that this lar-
sighted measure was passed missed
general recognition.

The action taken brings a step
nearer a permanent industrial com-
mission. Such a commission, when
it comes, will have no small influ-
ence in preventing strikes. Perhaps
it would be a body for direct concil-
iation in case of trouble. Perhaps
it only would gather information on
the issues at stake, and, as they do
in Canada, leaving the whole ques-
tion up to public sentiment for a
settlement. In any event it would
prove a strong force for good.

In the beginning the commission
as formed will confine its energies
to a broad investigation of the whole
field of capital and labor. It is ar-
med with a \$100,000 appropriation for
its first year's work. Its task must
be completed in two years. Many
prominent economists and social
workers were of the opinion that
such a big job would take at least
three years to accomplish, but the
senate decided on two. In the house
the bill had been handicapped by a
provision limiting the compensation
that could be paid any one man to
\$3,000 a year. Every one knows that
such a sum will not buy the services
of a really well equipped student
and investigator so the friends of
the measure united to eliminate this
feature from the final bill. They
were successful and now the com-
mission is at liberty to pay an able
employee what he is worth. That will
probably save it from being such a
farce as was the former "industrial
commission," which was dominated
by Penrose and, it is charged, sub-
mitted its report to John D. Arch-
bold of Standard Oil before it was
submitted to the senate.

The new commission in a general
way will study the causes of indus-
trial unrest. Necessarily it must
enter very closely into the question
of wages, profits, hours of labor,
shop and factory conditions, and
even go so far as to investigate
immigration and the question of
the influx of Asiatics on the Pacific
coast. It is planned to make the in-
quiry both deep and far reaching, so

that in the end some definite an-
swer may be given to one of the
most pressing problems of the day.
The task is big, but ultimately all
the labor should be well worth while.

DR. GREEN HAS A NEW CANCER THEORY

Among the many theories advanced
for the origin of cancers none is,
at first thought, stranger than the
one recently put forward by Dr. C.
E. Green of London.

This is that cancer is, to a great
extent, a coal smoke produced dis-
ease. And, in defense of the theory,
he has made a careful study of mor-
tality statistics in England and Scot-
land.

High cancer mortality rates seem
greatest in deep valleys with wooded
sides and with houses in the hol-
lows. Low flat plains, on the other
hand, had very low death rates. Fur-
ther investigations showed Mr. Green
that almost all the houses where can-
cer patients had lived had appliances
on their chimneys to increase the
draught and that these were invari-
ably smoky. From these facts, Mr.
Green has deduced the following:
"All towns standing in a cupped
location and surrounded by high
hills had high cancer death rates,
while those located on the low flat
plains had a low mortality. Similar-
ly, that houses built against hills or
a forest of high trees, or next a build-
ing with a much higher roof than its
own, will have chimneys which al-
most invariably draw badly. This is
because of the downward pressure on
the low-lying chimney when a breeze
is blowing from over the adjoining
higher roof, tree tops or hills."

He also insists the fact that in
tropical countries where there are
no chimneys, and there is no coal
used, cancer is almost unknown. In
Greenland and other cold countries,
where cancer used to be unknown,
the scourge has made its appearance
in recent years with the introduction
of hard coal for heating purposes.

Chimney sweeps are said to have
the highest mortality record of any
trade, 13 out of every 100 falling vic-
tims to it, and its prevalence among
workers in coal tar is becoming so
great that special regulations have
been made for that trade by the British
home office.

It is, at least, an ingenious theo-
ry.

One man announces that he will
spend the remainder of his life in
solving the perpetual motion prob-
lem. He is due for a chronic case of
severe headache.

King Alfonso is said to be quarrel-
ing with his mother-in-law. He
ought to have thought of a more
original method of proving that he
is human.

By a court decision, New Rochelle
must have a Carnegie library wheth-
er she wants it or not. Even the
courts are bound to help Uncle Andy
die poor.

Boston doctor says the American
race is becoming flat footed. That
probably comes from standing up in
street cars.

Probably a Penrose by any other
name would smell of Standard Oil.

Only One Thing Lacking

"Ah would like a week's vacation,
Miss Annie," she said, in her soft
negro accent. "Ah wants to be mar-
ried." Lillie had been a good girl,
so her mistress gave her the week's
vacation, a white dress, a veil, and
a plum cake. Promptly at the end
of the week Lillie returned, radi-
ant. "Oh, Miss Annie," she exclaim-
ed, "Ah was the mos' lovely bride!
Ma dress was perfect, ma veil mos'
lovely, the cake mos' good! An' oh,
the dancin' an' eatin'!" "Well, Lil-
lie, this sounds delightful," said her
mistress, "but you have left out the
point of your story—I hope you have
a good husband." Lillie's tone changed
to indignation. "Now, Miss Annie,
what yo' think? Tha' nigger nebber
turn up!"

PLAN AIR STEEPLE CHASE

CHICAGO, Sept. 17.—An aero-
plane steeple chase, believed to be
the first ever held, was the attrac-
tion for this afternoon at Grant
Park where the "transplanted" avia-
tors from Cicero spent the morning
tuning up their machines. Promoters
of the steeple chase plan to have the
hydro-aeroplane contestants start
from the scratch on land, jump the
lake front piloting into the harbor, sail
on the water until the breakwater is
reached and then rise into the air
and make the circuit around the
"four-mile" crib. The return flight
will be entirely in the air.

Gall Stones Removed Without an Operation

After suffering for one year with
gall stones, I was told by a friend to
try Swamp-Root. I began with the
fifty cent size and after using four
bottles found that I was much better.
Then began using the larger size
bottles and after taking three bottles
I was cured. That has been seven
years ago this summer and I have
never been sick since that time from
this disease.

I can cheerfully recommend Dr.
Kilmer's Swamp-Root to any one for
kidney and bladder troubles hoping
it may do as much good for many
people as it did for me.

Yours truly,

Quips and Cranks and Wanton Wiles

A Miscalculation
Well, it's always this way with me
when the summer starts to
wane;

With the coming of September I've
a grief to entertain.
In the gladness, gleeful springtime,
when my summer suit was
done,

With tan shoes and tiny straw hat I
paraded in the sun,
Sneered at winter clothes discarded,
proudly spurned them where
they lay.

Told my helpmeet she would better
give the whole outfit away.

I thought when the days of autumn
came in heavy, dank and chill,
When the leaves came drifting gen-
tly from the trees upon the
hill,

When the frost was on the pumpkin
and the fodder in the shock
I'd have saved a roll of money that
would buy a city block.

Now the autumn days are nearing
and the harvest moon, and,
gee!
I might search my summer garments
and not find a sue marquee.

That is why impending autumn fills
my spirit with dismay.
What on earth could have impelled
me to give those old clothes
away?

How could I have thought the ice
trust and the meat trust
would permit
Me to pile up golden ducats, and the
fuel trust would sit
idly by while I bought garments to
defy the cold and snow?

Now my wife's sole words of com-
fort are just these: "I told
you so!"

A Humorous Anecdote

The late Lord Ardwell had a gift
of spontaneous humor, a great flow
of anecdote, and a turn for vigorous
expression. Round this idiosyncrasy
many stories grouped themselves.
One was to the effect that while he
was busy at his desk one day one of
his boys came into his study and an-
noyed him by fidgeting about the
room.

"Can't you keep quiet? What's the
matter with you?" the parent asked
sharply.

"Father, do you remember I asked
you yesterday what a billion
was?"

"Yes. What about it?"
"And do you remember you told
me it was a devil of a lot?"

"Well, perhaps I did. But why on
earth can't you sit down if you've
anything to say to me?"

"Well, the teacher asked me to-
day what a billion was, and I gave
him the right answer—and—and—
that's why I can't sit down."

What Happened
They'd been telling dog stories,
but the old man sighed as each told
his tale.

"Ah," he said at last, "but my lit-
tle dog Jumbo, he was a dog."
"And what happened?" they asked.

"He's gone," said the old man sor-
rowfully. "His death was a most af-
fecting thing. Times were bad with
me just then. Piece by piece the fur-
niture went, till at last we'd only
the bed left. Then came the hardest
knock of all—December 31st.

"How was that?" they queried.
"Ever 'card of the Inland Revenue-
due?" said the old man.

"Yes, but what's that got to do
with the dog?"
"Everything. He heard me tell the
missus on the night of the 30th that
I hadn't a ha'penny left, and he was
that considerate he went out and
died in the cold."

"Rather than eat—"
"Eat? No, rather than live another
day and let me in for a new li-
cense."

Tying a String Round the Finger

There is no doubt that the tying
of a piece of string round the finger
is a really good aid to a poor mem-
ory; but there is a well-authenticat-
ed case of a man who tied a piece of
cotton around his finger in the
morning to remind him to get his
hair cut. On the way home to din-
ner that evening he noticed the piece
of cotton. "Oh, yes, I remember," he
said, "and smiling proudly, he en-
tered the accustomed shop and sat
down before the tonsorial operator.
"Er—yes, sir?" said the artist, pu-
zled inquiry in his tones. "Er? Oh,
yes; cut my hair, please," command-
ed the absent-minded one, curtly.
"Why, certainly, sir, if you wish it,"
said the artist, "but you won't mind
my mentioning the fact that I cut
it this morning, sir, will you?"

HE COMES UP SMILING

"Who was your father?" asked
Billy.

"A minister," answered the Water-
melon, clasping his hands behind
his head and staring up at the in-
terlaced boughs overhead. "A
country minister. He used to say
that there was just one thing in
this world more pitiful than a coun-
try minister, and that was his wife."

"Why," cried Billy, "the papers
said he used to be a policeman."

"I thought you didn't read the
papers?"

"I don't, just the Sunday supple-
ments," said Billy frankly, as one
to whom his intellectual develop-
ment is of minor importance.

The Watermelon wheeled over
with a laugh and caught her hand.
"Hang dad!" he exclaimed.
"Where'd you get your name?"

He drew himself up on the log
beside her, as near as he dared. He
wanted to put his arm around the
slim waist, but decided that he had
better not.

She jerked her hand away and
laughed, her small nose wrinkled,
the dimple coming and going.
"Don't you like it?"

"Sure. It's classy, all right. But
what is the long of it?"

"Wilhelmina. Dad's is William,
just like yours. We're all Billies."

"Mine ain't William," sneered
the Watermelon, edging a bit
nearer.

Her eyes opened and she stared
in frank surprise. "But the papers
say."

"The papers lie faster than I
can," said the Watermelon, "and
that's fairly speedy." He had only
an hour and he did not care what
she thought between him and the
papers. "Billy is a darned cute
little name, and a cute little girl,"
he added.

"I guess you can lie faster than
the papers," said she.

"I can when I want to," admit-
ted the Watermelon. "Father used
to say that a man that couldn't lie
was a fool and one who wouldn't,
a bigger."

"I should think if your father
was a minister that he wouldn't
lie," said Billy severely.

"I know. But he used to say he
had to in a business way. To tell a
man that there was a bigger hell
than this earth was a lie on the face
of it."

"Why?"

"Because there couldn't be, he
used to say."

"Don't you believe in Heaven?"
demanded Billy.

"Sure," said the Watermelon.
"What do you think it's like?"
asked Billy.

"A watermelon patch," said the
Watermelon promptly. "Just when
all the fruit is ripe. Don't you
think so?"

"I think it's an ice-cream coun-
ter," said Billy.

"Naw. At an ice-cream counter
you would have to have money."

"Not in Heaven, you wouldn't,"
said Billy. "It would all be free
and you could have as much as you
wanted."

"Who would wait on you? Any
one could pick a watermelon, but
everybody can't mix an ice-cream
soda."

"The bad people would. That
would be hell, you see, always serv-
ing it to others and never allowed
to taste any."

"That wouldn't work, either,"
objected the Watermelon. "Because
there would be so many more to do
the serving than there would be
people to serve. No, we are both
wrong. Heaven is a grove of trees
back of a white garage. There's a
fallen log and a couple sitting on
it."

"I should think that would be
monotonous," said Billy. "Do they
talk?"

"Sure, they talk. Heaven ain't a
deaf and dumb asylum."

Why Have "Nerves?"

This is the reason why women have "nerves." When thoughts begin to grow
cloudy and uncertain, impulses lag and the warnings of pain and distress are sent
like flying messages throughout limbs and frame, straightway, nine times in ten, a
woman will lay the cause of the trouble to some defect at the point where she first
felt it. Is it a headache, a backache, a sensation of irritability or twitching and
uncontrollable nervousness, something must be wrong with the head or back, a
woman naturally says, but all the time the real trouble very often centers in the
womanly organs. In nine cases out of ten the seat of the difficulty is here, and a
woman should take rational treatment for its cure. The local disorder and inflam-
mation of the delicate special organs of the sex should be treated steadily and
systematically.

Dr. Pierce, during a long period of practice, found that a prescription made
from medicinal extracts of native roots, without the use of alcohol, relieved over 90
per cent. of such cases. After using this remedy for many years in his private prac-
tice he put it up in form of Dr. Pierce's Favorite Prescription, that would make it
easily procurable, and it can be had at any store where medicines are handled.

Mrs. LILA B. HAWKINS, of Zeus, Va., writes: "I had been failing in health
for two years—most of the time was not able to attend to my household duties.
Female weakness was my trouble and I was getting very bad but, thanks to Doctor
Pierce's medicines, I am well and strong again. I took only three bottles of 'Favor-
ite Prescription,' and used the 'Lotion Tablets.' I have nothing but praise for
Doctor Pierce's wonderful medicines."

TAKE DR. PIERCE'S PLEASANT PELLETS FOR LIVER ILLS.

Billy, glancing over her shoulder
fearfully.

"Not of female cows," said the
Watermelon.

"A broker wouldn't have said
that," objected Billy, pursuing up
her mouth. "A broker would say,
'No, indeed, Miss Bartlett. Don't be
afraid. A cow is really harmless,'
and smile as if I were young and
half-witted, anyway."

A stick snapped again, nearer,
and a woodpecker fled from a group
of trees, scolding angrily.

Billy rose nervously. "If that's a
male cow—"

"Sit down," ordered the Water-
melon. "It's no cow, unfortunately.
It's the general."

"Don't you like the general?"
asked Billy, sitting down again, but
ready to rise quickly, instantly.

"Yes, I like him, but I don't think
I would if I were a motor-car."

"I have known him and Henrietta
all my life," said Billy. "Henrietta
has been like a mother to me," she
added, a statement Henrietta would
have denied, shortly but firmly.

"Really, we ought to go back,"
"Politeness is not politeness un-
less it comes from the heart," said
the Watermelon, in the tones that
had made Henrietta think of a min-
ister, she knew not why.

"Did your father used to say
that?"

"No, he never had any cause to.
We never were polite."

Billy glanced around. "I thought
I heard some one cough."

"So did I. It can't

LEAGUE ASSURED NEW SIDEWALKS

President of Progressive League Says Public Officials Favor Rubber Mill Walks

MAY APPROPRIATE \$1,000

Resolution Providing for Expense of New Project Will Be Introduced Soon

As a result of the action of the North Side Progressive League in agitating the matter of building a sidewalk to the La Crosse Rubber Mills and several conferences which President George Baum has had with city officials, it is expected that a resolution will soon be introduced into the council providing that the city appropriate \$1,000 to build this sidewalk. Mr. Baum stated this morning that following conferences with Mayor John Denger and the board of public works they had approved of this action and it is thought that the matter of appropriating this sum of money will be voted on at a special meeting in the near future.

The matter of building a sidewalk and repairing the road to the Rubber Mills has been hanging fire for some time and the Progressive league has repeatedly taken the question up and tried to have something done. As the road is now in fairly good condition the city will not be asked to do anything to it but the sidewalk is badly needed and a cement walk is needed.

"Since the Progressive league decided that this walk should be built I have been investigating the matter myself and I recently conferred with Mayor John Denger," said President George Baum this morning. "I explained the situation thoroughly to Mr. Denger and he agreed that something should be done. The board of public works also agreed that the walk should be fixed and I think they will introduce the resolution to have the city build it at a cost of \$1,000 at the next meeting."

"Owners of property where the sidewalk is to be built were notified to build the sidewalk in front of their lots but the time limit is up on October 1 and nothing has been done. As these lots are so poorly located that they have no value, one cannot blame the property owners for failing to build the sidewalks. Most of the lots in the vicinity of the mills in front of which the sidewalks would have to be built are in marshy land so it can plainly be seen that the property owners are not at fault for not putting in the sidewalks as it would be an expense which would bring no return."

Mr. Baum declared that for this reason the city should build the sidewalk leading to the mill where hundreds of local people are employed. The city would have to build only about two blocks of walks and this could be done for \$1,000, the sum which it is thought will be recommended at the meeting to be appropriated. In case the council decides to build the walk, the place where it is to be laid will be levelled and filled this fall, while the cement part will be put in next spring.

"Although we are not exactly opposed to having the city spend so much money in Minnesota fixing bridges and roads," said Mr. Baum, "we think that before they do that they should spend money doing things which will benefit the city and we consider that the building of the sidewalk to the Rubber Mills is necessary. Personally I know that the roads in Minnesota are poor and should be made better, but I think that the city should appropriate the \$1,000 necessary to build the sidewalk to the Rubber Mills."

KANSAS MOOSERS SPLIT ON BALLOT

William Allen White Wants Electors to Quit G. O. P. Ticket; T. R. Will Object

TOPEKA, Kas., Sept. 17.—The arrival of Col. Roosevelt Saturday and his action in the election muddle were awaited today with trepidation in both progressive and republican circles. William Allen White, progressive national committee man, has announced that the Roosevelt electors would withdraw from the republican ticket if the election authorities placed the names of Taft and Sherman at its head. Professing to see in this announcement the loss of hard earned court victories, other bull moosers are prepared to fight Allen. The insurgents declare Roosevelt will not permit the removal of his electors to the independence column.

SWEETHEART TO STICK TO LOVER

Maud Irolier Declares She Will Wait for Outlaw Edwards if He Is Jailed

ROANOKE, Va., Sept. 17.—"I'm going to stick to Wes, to the finish," was the statement today of Maud Irolier, 18-year-old sweetheart of Wesley Edwards, the Allen "outlaw" arrested at Des Moines with Sidna Allen for complicity in the Hillsville court house tragedy of March 14.

"Wes, thinks he's goin' to get off with a term in the penitentiary," continued Miss Irolier, "and I'm go to see him through. I'll wait for him for years if I have to."

Miss Irolier was held here for the arrival of her father from Mount Airy, N. C. She is technically under arrest as a principal witness, but the detectives intimated she would be allowed to return home under her personal recognizance. Little value is attached to her evidence at the trial of Sidna Allen and her sweetheart. Letters she received from Edwards while he was at Des Moines have been seized by the officers. These are said to be the most incriminating evidence possible to secure from the girl.

FUNERAL REPLACES SOCIAL

MUSKEGON, Mich., Sept. 17.—High requiem mass was said today in St. Joseph's German Catholic church in place of a jolly church social. The mass was held over the bodies of Mrs. Lirich Reigler, Mrs. Albertine Witt and Mrs. Adolphus Turneck, who were killed while collecting provisions for the church affair. The women attempted to cross the railroad tracks in front of a train and were killed.

BAR FUNERAL FILMS

CHICAGO, Sept. 17.—Chief of Police McWeeney today stationed a man at the Pekin theater on the south side to prevent the showing of moving pictures of the funeral of Mrs. Etta Duryea Johnson, who shot herself in her husband's cafe last week. Johnson has obtained a temporary injunction restraining the theater from using the pictures and the police censor has also barred them.

PREDICTS 5 CENT EGGS

COLUMBUS, Ohio, Sept. 17.—Eggs at 5 cents apiece is the price predicted for this winter by Prof. F. S. Jacoby, head of the poultry culture department of the state university. Storage eggs usually held for winter are now being sold in large cities, he said today.

JOHNSON AT PEORIA

PEORIA, Ill., Sept. 17.—Governor Hiram Johnson, Col. Roosevelt's running mate, left here today to continue his tour of Illinois, after a rousing meeting last night. He will spend tonight in Centralia.

Gossip Is Necessary.

Gossip responds to a human need, and gossip about dead men cannot hurt them. It clearly shows the stuff that reputations below a certain grade are made of. Many of the smaller glories owe their longevity to the lazy-mindedness of the survivors. For who can afford to be painstaking about such trifles?—Frank Moore Colby.

Effect of Soil on Grape.

In the Medoc country of France—famed for its red wine—the growers exercise the most scrupulous care in the selection and application of fertilizers. They understand that, while the vine is hardy, it is exceedingly sensitive and that the quality of the fruit may be injured by a very slight change in the soil.

As far back as the reign of Queen Elizabeth there was a crown official, known as the "uncorker of ocean bottles," whose duty it was to open all sealed bottles cast up by the sea and examine the contents. EARNEST ADVICE

From a Woman Who Suffered from Lack of Blood and Who Has Recovered Perfect Health.

Bloodlessness is one of the greatest enemies of growing girls and young women. So stealthily and gradually does it afflict them that the disease is often well advanced before it is detected. Therefore it is important to note the first symptoms and check the thinning of the blood.

Miss Helen J. Pounds, of No. 929 Libby street, Toledo, Ohio, who cured herself of anemia with Dr. Williams' Pink Pills for Pale People, says: "I cannot speak too highly of Dr. Williams' Pink Pills for Pale People. I am in better health than in years. Since I was a girl in my teens I suffered from anemia and headaches. I never received benefit from the doctors. To tell the truth I don't believe they knew what ailed me. My digestion was poor and I had difficulty in keeping anything on my stomach. I had an abnormal craving for various articles of diet which I had to satisfy. There were awful pains in my stomach. I had very frequent spells of dizziness when I would have to sit down and rest. I was terribly nervous and couldn't stand any noise. I was very restless and some nights, couldn't sleep for more than two or three hours. I had sick headaches over the eyes and through the top of my head. I suffered from pains in the side."

"After a year's sickness I began taking Dr. Williams' Pink Pills for Pale People. From the first I began to gain color in my cheeks and gained in weight and strength. I kept on with the pills until I was cured. I am perfectly well now, weigh more and am stronger than ever before in my life. I am in perfect health and am sure that Dr. Williams' Pink Pills for Pale People were the very medicine needed in my case."

A helpful booklet, "Building Up the Blood," will be sent free to any address on request. It will show you what Dr. Williams' Pink Pills have accomplished in cases like your own.

Dr. Williams' Pink Pills have repeatedly cured anemia, indigestion, neuritis, St. Vitus' dance, rheumatism, lumbago and sciatica. All druggists sell them or they will be sent by mail, postpaid, on receipt of price, 50 cents per box; six boxes for \$2.50, by Dr. Williams' Medicine Co., Schenectady, N. Y.

CURLEW LEAVES LA CROSSE TODAY

The government steamer Curlew left this morning on a cruise down the river, where the work of propagating the claims will be begun and will probably continue until cold weather sets in. The boat will work along the main river and sloughs, from where the claims will be secured, and everything will be done to make the big industry better than before. The first stop to be made by the Curlew will probably be at Genoa.

MARRIED TODAY

Miss Della Pierce of Onalaska and Herman Humfield of La Crosse were married at the St. James church at 8:15 o'clock this morning by Rev. A. Murphy. The bride was attended by her sister, Miss Genevieve Pierce who acted as bridesmaid while Mr. Humfield's brother, Gerhart, was best man. The couple will reside at La Crosse.

NINE ALDERMEN FREED

DETROIT, Mich., Sept. 17.—That the charge against nine aldermen of agreeing to accept a bribe will be dropped was the statement of Prosecutor Shepherd today, following the release of Aldermen Ellis and Watson on that charge yesterday. The prosecutor stated, however, that the conspiracy charge against the seventeen aldermen who were arraigned last Friday will be pushed.

She Wonders Why Men Shun Her!

She may be beautiful and attractive in many ways, but the delicate, discriminating refinements in her toilet are lacking. Among all the charms of sweet womanhood, the first is that patrician atmosphere of immaculate personal care—the atmosphere of super-cleanliness, the grace of ease and comfort in every motion—that attractiveness which makes a girl or woman refreshing to behold.

Applied to the neck, arm-pits, bust, waist—all parts of the body where the clothing rubs—Kucio No-Chafe Powder "lays" to the skin in a smooth, velvety and almost invisible film—which does not rub off, as do talcums and ordinary toilet powders.

Keeps the tenderest skin smooth and soft, comfortable and free from irritation—refreshed and sweet—overcomes all unpleasant effects of perspiration—vanishes and prevents sunburn.

Sold by all druggists, at 25 cents a box, with revolving sifter top. To ask your druggist for Kucio No-Chafe Powder distinguishes you as user of the finest toilet requisites insisted upon by the most immaculate of personal care.

WATCHING THE SCOREBOARD

Though too far behind to have a chance for the pennant, the Cubs had the grim satisfaction of taking the season's last series from the Giants. The score was tied in the seventh when Archer drove a high one into the left field bleachers, putting a crimp into the Giants' hopes for the day.

The Reds had the Indian sign on the Phillies and took both games of a double header by timely hitting and fast work on the bases.

The Braves tallied seven times in one inning, drove Woodburn to the pasture and walloped Bresnahan's team 8 to 4.

The Athletics and Naps played the only game in the American league and the Mack men increased their lead over the Senators three points by defeating Cleveland, 8 to 0.

It is reported that Charley Lavigne has taken up Art Nelson of Wyeville and intends to make a white hope out of him. Nelson is well known in this city, for he has been in many bouts during the last winter and he had done well in all of them. He is a big man, standing 5 feet 11 inches and weighing 190 pounds when in condition.

The baseball season in the state league closed Sunday and Oshkosh, the champions, won their last game of the year. It is reported that Manager Joe Killian is now the hero of the town, for he gave Oshkosh its first pennant in many years.

The outfield of the Philadelphia Athletics, which was considered one of the best in the game, is all but broken up now and it looks as if three new faces will be seen where but a year ago it was thought the old men were good for years to come. Lord, left fielder, has been sold to the minors; it is said that Oldring will be the next to go, and Captain Murphy is not yet over the injury he sustained in a game some time ago. If Murphy is also disposed of, Connie Mack will have to build up an entirely new outfield to replace the one which but one year ago was one of the wonders of the baseball world.

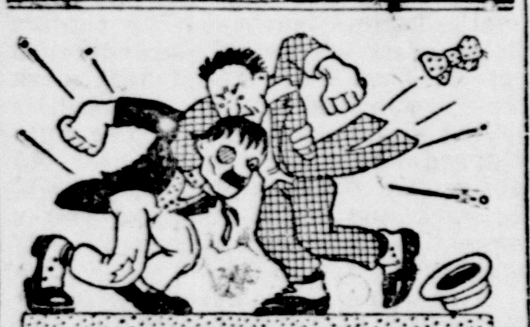

Name That Will Live Long.

Charles Dickens was christened Charles John Huffham, or Huffham, as it is erroneously entered in the parish register. But when he became famous he dropped the last two Christian names, as he desired to be known as plain Charles Dickens, a wish respected on his tombstone in Westminster abbey, by his biographer and friend, John Forster, and by the scrupulously accurate "Dictionary of National Biography."

Cure for Laziness

A FRENCH SCIENTIST has discovered that hypodermic injections of Formic Acid will cure the most obstinate case of laziness. A few drops were injected into a tired hobo. The tramp cut and split four cords of wood that afternoon, and when night came refused to stop work, in fact he had to be stopped by force. THERE IS JUST as remarkable a cure for coughs and colds, if the people only knew it. Coughs and colds can't live where it is used. It is the new way of curing. Its effect is simply astounding and must be seen to be believed. The remedy is called Gray's Yerba Santa and comes in 50c and \$1.00 bottles, and is sold by APOTHECARY BEYSCHLAG 503 Main Street

TENNIS SEASON IS ON AT HIGH

Tennis has at last come into its own as one of the approved sports of the high school athletes. Up till now the high school could never boast of a tennis court, and now that the courts have been completed those who have been playing the game elsewhere, got together and have arranged a fall tournament that will mark the opening of the game in high school.

The Athletic association is in sympathy with the movement and has purchased tape to line off the courts and will do all in its power to stimulate interscholastic meets. The twenty or more men interested now in the movement have agreed to purchase balls and a net to complete the equipment of the court and will roll the courts to keep them in shape.

Mr. McCormick and Mr. Benezet have offered a tennis racket as a prize to the winner of the tournament, and Mr. Leach has offered a pair of tennis balls as a consolation prize.

"Moonshining" in Scotland.

The discovery was made, recently, in the mountainous region near Kyle of Lochalsh (Scotland) by the Roesshire preventive staff of a complete illicit whisky distilling plant. The still was covered with a cairn, and had a capacity of 20 gallons, the stove being led along the mountain side. The smugglers had conducted a regular traffic.

By Natural Reasoning.

A keen student of human nature must have written the following: "When you see a young man sauntering down a street shortly after midnight with his collar crumpled, you can make up your mind that there's a young girl crawling upstairs not far distant, with her shoes under her arm and an extinguished lamp in her hand."

His Reward

"It's an unsatisfactory, disappointing kind of a world," said the old soldier. "I fought four years for the Union. I was in sixteen battles, including Antietam, Gettysburg, Fredericksburg and The Wilderness. I was wounded twice and spent four months in Andersonville. I tramped hundreds of miles in the dust and the mud and the snow. I got rheumatism from sleeping in the wet, and I almost died with typhoid. I lived two days on three pieces of hard-tack, and ate salt pork that wasn't fit for a dog. I enlisted as a corporal and came out of the war a private, and then they spelled my name wrong on my discharge papers."

MARRIED IN AUTO IN THUNDERSTORM

NEW YORK, Sept. 17.—Wanting what she termed a romantic wedding, Mrs. E. Brinkerhoff Sanford, a widow of San Francisco, told today how she was married at midnight in a rainstorm, to Addison Clark Angus of Briar Cliff. They went to Fishkill Landing, which is the railway approach to Matteawan asylum for the criminal insane, and were married by Justice Frank S. Colwell, whom they induced to stand in the pouring rain on the running board of an automobile, to say the ceremony, while Mrs. Sanford and Angus stood up in the tonneau. Lightning gave the lighting effects.

Bull Objected to Rider.

A millionaire rancher, of Pomona, Cal., was painfully injured, recently, while attempting to ride a large red Durham bull. He had made a wager with another rancher that he could remain on the bull's back for two minutes, faith in his ability to win the wager being based upon his experiences in broncho riding. He lost the bet by just 117 seconds, for three seconds after he mounted the animal's back, he was seated in the center of the corral nursing a badly wrenched hip and shoulder.

Family and the Meals.

Meals should be something more than the consumption of food. All work stops at those times and people meet together. Nothing that can be done should be omitted to make it an occasion of agreeable interchange of thought and conversation, and when this is done not only the body, but the mind and nerves are refreshed.

Tragic.

In being a success there is no pleasure if a man does not look the part. Prof. Prewins, one of Newark's most celebrated scientists, was out walking recently when a flashy stranger said to him: "How often do the Montclair cars pass here, me boy?"—Newark (N. J.) News.

DON'T SCOLD AN IRRITABLE CHILD

If tongue is coated, stomach sour, breath feverish, give "Syrup of Figs" to clean the bowels

Your child isn't naturally cross, irritable and peevish, Mother! Examine the tongue; if coated, it means the little ones' stomach is disordered, liver inactive and its thirty feet of bowels clogged with foul, decaying waste.

Every mother realizes after giving delicious "Syrup of Figs" that this is the ideal laxative and physic for children. Nothing else regulates the little one's tender stomach, liver and bowels so effectually, besides they dearly love its delightful fig taste.

For constipated bowels, sluggish liver, biliousness, or sour, disordered stomach, feverishness, diarrhoea, sore throat, bad breath or to break a cold, give one-half to a teaspoonful of "Syrup of Figs," and in a few hours all the clogged up waste, sour bile, undigested food and constipated matter will gently move on and out of the system without gripping or nausea and you will surely have a well, happy and smiling child again shortly.

With Syrup of Figs you are not drugging your children, being composed entirely of luscious figs, senna and aromatics it cannot be harmful. Full directions for children of all ages and for grown-ups plainly printed on the package.

Ask your druggist for the full name, "Syrup of Figs and Elixir of Senna," prepared by the California Fig Syrup Co. This is the delicious, genuine old reliable. Refuse anything else offered.

BRYAN PRAISES BOB

COMMONER DECLARES LA FOLLETTE IS A THOUSAND TIMES BETTER REFORMER THAN T. R.

PUEBLO, Colo., Sept. 17.—William J. Bryan finished his brief Colorado campaign with an address at the state fair here today, boarding his train at noon for Montana, Utah and the Pacific coast. Enroute to California, the Nebraskan will deliver speeches in both states, speaking from the rear platform of a special train.

Throughout his Colorado speeches, Bryan laid particular stress upon what he called the necessity of checking the third term idea fostered by Col. Roosevelt. He denounced the Oyster Bay statesman more severely than he denounced Taft, and in his Colorado Springs address last night said:

"A year ago Roosevelt never raised a hand to help La Follette in his fight with Taft, and La Follette is a thousand times a better reformer than Roosevelt ever was. Roosevelt is an eleventh hour progressive—hardly that, for he did not do as they did in the biblical parable, come at the eleventh hour and call for a penny. Instead of that, he comes at five minutes of twelve and asks for the whole thing."

WILSON BRYAN'S GUEST

LINCOLN, Neb., Sept. 17.—According to arrangements just completed today Woodrow Wilson will spend Sunday, October 6, as a guest at Fairview, the country home of William Jennings Bryan. The two will go there, following a meeting in Lincoln Sunday night, at which Bryan will preside and Wilson will be the principal speaker. A special committee is planning a monster demonstration to feature the meeting of the two democratic leaders here.

Windfall in Old Hat.

There is something more than a joke in inheriting an old hat from an uncle. For the recent Mardi-Gras fete, in Paris, a motor bus driver, wishing to "dress up," borrowed from a restaurant keeper an old battered "top" hat, inherited from a deceased uncle. During the festivities, the wearer, in attempting to adjust his wig, knocked off the hat, and to his astonishment out fell nine 100 franc notes (\$180). He hastened to put this unexpected bequest into the cafe keeper's hands.

Wearied of the Piano.

Quite human and tinged a bit with suggestion is one remark Mendelssohn made to a friend in the days of compulsory piano study: "I am glad when Sunday comes, for that is the day I don't have to get up at five in the morning to practice!"

SOCIETY

F. R. A. TO OPEN SOCIAL SEASON

The first big meeting of the F. R. A. for the fall and winter season will be held Thursday night, September 19, when the social machinery, consisting of the different committees of which the order is composed, will be started upon another season of elite social functions. The committees in charge of this part of the work are planning on a big campaign. The first class of the season will be taken into the order and a large number have enrolled, to go in while the season is young.

After the business session the commissary department, under the charge of W. D. Noble and staff, will tickle the palates of the members with dainty refreshments.

The dramatic club of the order will then entertain by having some of its members give an Irish vaudeville sketch, entitled "O'Toole's Battle of Ante-Up." The sketch is a whirlwind of wit and real comedy, and brings out the plot, how Gilhooley plans to marry his daughter Kitty to his friend O'Toole, by impressing her with a fake story of how his life was saved by O'Toole in the battle of Ante-Up. This blarney is not taken as seriously by Kitty as they think, who has already married a man of her choice and the cleverness of the Americanized Irish getting the better of the old time Irish, makes the sketch a side splitting farce that is seldom seen on the amateur stage. The cast of characters follows:

Fitzpatrick Gilhooley... A. C. Radke Michael O'Toole... Dan Whalen Kitty Gilhooley... Alice Mockley Dancing will then be the order of the evening and the members are looking forward to a pleasant time.

LAUNCH RIDE

A party of ladies braved the weather and set forth in a closed launch for a river ride and picnic by invitation of Mrs. W. Ott and Mrs. Ida Kaeppler yesterday, it being quite as wet on terra firma as upon the river it was decided to go to the houseboat of Mr. Henry Neibuh, where their supper was served, after which a ride of several miles up the river was given to the party. The event was in honor of Mrs. McGuiguen. Others of the party were Mesdames Albert Gantert, J. Bartl, Grace McLindon Bartl, Henry Rooney, Phil Linker, Henry Seiger, W. F. Hurtgen, W. B. Frazer, Arthur Loeffler, Pickert, Henry Boehm, A. Grams, Shirley, Kaeppler and Ott and Miss Mae Williams.

SURPRISE MR. IKERT

Mr. I. Ikert, proprietor of the "Snow Plow Hall," was entertained Sunday evening by forty members of the Frohsinn society, the occasion being his fifty-ninth birthday. The evening was spent in singing and was appreciated very much. Several speeches were given, after which a delightful lunch was served. All departed at a late hour and reported a good time. His children presented him with a mission reading table and lamp, besides many beautiful flowers.

RUNAWAYS SMASH CAR

FOND DU LAC, Wis., Sept. 17.—Frightened during a storm by a falling electric light pole, which threatened to envelope the driver and outfit in a network of live wires, a team of horses hitched to a five ton concrete mixer made a wild dash down one of the principal residence streets last night and ended the mad race by colliding with a crowded street car. A great hole was torn in the side of the car. Passengers were thrown into panic but none were seriously injured.

Lucky Shot for the Hare.

While shooting at Wool, Dorset, a farmer fired at a hare and missed it. The hare made for a hedge and got caught in a wire. The farmer fired again and the shots cut the wire. The hare thus freed got away, to the chagrin of the sportsman.—London Evening Standard.

Impatience.

How weak we think others are to show impatience! It is so clear to us that impatience in others is a foolish waste of vital force, since it cannot possibly do any good, but we are impatient ourselves, and learn nothing from the folly of others.—Atchison (Kan.) Globe.

The Provincialism of Self.

The narrowest provincialism is that of self. The natural man, like the singing bird, comes out of the forest as inevitably as the natural bear and the wild cat stick there. To seek to be natural implies a consciousness that forbids all naturalness forever.—James Russell Lowell.

TROUBLE IS EXPECTATION

Serious Clashes are Looked for and Troops are in Readiness to Interfere

BELFAST, Sept. 17.—A ten days series of big orange demonstrations against home rule will begin tomorrow with a meeting at Enniskillen, where it is expected 15,000 Protestants will formally warn the government of their determination never to acknowledge an Irish parliament, to obey its laws, or to pay taxes, which it may impose. Other meetings will follow elsewhere throughout the north.

That the demonstrations will result in widespread disorders is considered more than likely. In anticipation of trouble at Enniskillen, the authorities took stringent precautions today. A big force of police will be on duty and troops will be held in readiness to reinforce the police at a moment's notice.

That the demonstrations will not be mere irresponsible affairs may be judged from the fact that among those who will participate prominently in them are such men as the Dukes of Devonshire and Abercorn, the Marquises of Londonderry and Salisbury, Admiral Lord Charles Beresford, Lord Hugh Cecil and ex-Solicitor General Sir Edward Carson. The government has threatened all these leaders with prosecution. If they do not moderate their activities. To these threats the leaders have replied by boldly inviting the government to prosecute and watch the explosion which will follow.

In Belfast, manufacturing was largely tied up today by the incessant fighting between the Catholic and Protestant workmen. Dozens were badly hurt.

THE ANTI-MOOSE PROGRESSIVES TO "PUT HIM OVER"

(Continued from Page 1)

Durand, Otto Bosshard, La Crosse; C. E. Mauthe, Fond du Lac and R. T. Dithmar, Baraboo.

On other points the convention promises to be harmonious. There will be no endorsement of any presidential candidate, that having been agreed to. This understanding was reached after it had been suggested that, the new election law having separated the presidential ballot from the state ballot, no explanation of the convention confining itself to purely state stuff would be necessary.

Will He Bull Moose? It now remains to be seen whether the political prophets who have said that if the convention does not bull moose (note the new verb) McGovern will not bull moose are infallible.

The convention will endorse Senator La Follette, it is said, in the strongest terms, and will also endorse the La Follette platform as submitted to the national republican convention at Chicago, and there rejected.

The Platform It is believed that the platform committee will offer a plank commending the work of the recent fire insurance investigating committee which found that the rates on residences are altogether too high. The platform will call for legislation that will immediately reduce fire insurance rates. There will be a strong plank on conservation, and another plank detailing the reforms needed to improve rural school conditions in Wisconsin.

Suffrage in Doubt

A large question mark moves over the subject of woman suffrage. Two weeks ago it was assumed that the republican platform would declare in favor of woman suffrage. Some of the leaders here today, however, believe that it would be best for the party to point out the fact that this matter had been referred to a referendum vote of the people, and remain in silence, as to either commending or condemning it. The investigations as conducted by the state board of public affairs, showing how the expenses of this state may be curtailed, will be indorsed in some form.

Lieut. Gov. Tom Morris and Assemblyman J. E. McConnell are taking prominent parts in the convention, and have been in conference with Senator La Follette. F. H. Burgess accompanied the La Crosse party as an "innocent bystander."

HILLES SEES LIGHT

NEW YORK, Sept. 17.—Republican national headquarters were more busy today than at any time since the campaign opened and Chairman Hilles conferred with party leaders from various sections. He said that he was more than pleased with the recent developments and that there was little doubt that the swing toward President Taft was increasing as the days went by.

SAY INTERVENTION NEEDLESS

WASHINGTON, Sept. 17.—No conditions will arise that will make American intervention in Mexico necessary, was the statement today of Dr. Eduardo Liceaga, president of the Mexican City board of health, who is visiting here.

AMERICANS HAVE \$3,000,000 CLAIMS

U. S. Property Owners Demand Big Sum from the Madero Government

PRESIDENT IS UNPOPULAR

Deposed Diaz Is Cheered by Capital Crowds and Troops Keep Order

WASHINGTON, Sept. 17.—Claims aggregating nearly \$3,000,000 resulting from recent depredations of rebels upon American property in Mexico have already been filed against the Madero government, it was learned today. More are to come. Ambassador Wilson at Mexico City has been instructed to press the new claims.

State department officials today declined to officially comment on President Madero's message to the Mexican congress yesterday in which Madero said the claims of the Americans were grossly exaggerated. It was intimated, however, that full settlement will be demanded.

Americans Safe

DOUGLAS, Ariz., Sept. 17.—All the Americans at El Tigre, the richest mining camp in Northern Mexico, are safe, according to telephone messages received here today. Aside from about \$10,000 worth of bullion, the rebels got no loot before they evacuated the camp in the face of advancing federal troops late yesterday.

Madero Message Unpopular

MEXICO CITY, Sept. 17.—President Francisco Madero's message to congress formally received yesterday, did not strike a popular chord today. Its extravagant optimism, especially regarding the rebellion, was scheduled to be criticized by the opposition at this afternoon's session.

Madero's unpopularity, disclosed by street scenes in which ex-President Porfirio Diaz was cheered, is growing but that the end of the present administration's reign is as far off as ever is admitted. The predicted mutinies in the army's ranks have not materialized. To the loyalty of the soldiery, police and constabulary was due, in most part, the quiet passing of independence day. The military patrolled the streets ceaselessly today. The guard around the president's palace continued heavy.

AFTER PENNSYLVANIA

DEMOCRATS TO MAKE BIG EFFORT TO WREST KEYSTONE STATE FROM REPUBLICANS

NEW YORK, Sept. 17.—Determined if possible to wrest Pennsylvania from republican control, the democratic national committee announced today preliminary plans for one of the most strenuous campaigns ever undertaken in any state. Within three days a score of orators of national repute will be criss-crossing the state. The campaign will be headed by Governor Thomas R. Marshall of Indiana, who will spend four days in the Keystone state. Among the orators will be Oscar W. Underwood, Senator O'Gorman, Hoke Smith, Congressman Henry and Senator Gore.

STODDARD BEATS GREENES 10 TO 3

Fielding mistakes on the part of the Greenes gave Stoddard a 10 to 3 victory when the teams met at Stoddard Sunday. Although neither Layman or Berger, who did the pitching, were hit hard, six errors by the Greenes let Stoddard win easily, six runs coming in in the sixth inning, this practically settling the game. Any teams desiring to play the Greenes can make arrangements for a game by telephoning 1095-R.

MINNESOTA PRIMARY ON

ST. PAUL, Minn., Sept. 17.—Minnesota's first election under the new state wide primary election law is being held today.

Weather conditions are perfect by the early vote was unusually light. No reports of disturbances of any kind were received up to noon. Election officials were kept explaining to voters how to vote under the first and second choice provisions so as not to invalidate their votes. The polls will be open until 9 o'clock tonight.

SOCIALISTS DISPERSED

THE HAGUE, Sept. 17.—Socialists made a demonstration in front of parliament house today. They were scattered by a charge of gardarmes with drawn swords.

CHIPPewa FALLS, Wis., Sept. 17.—Frank Sadek, 52, a Soo line employee, is dead here on account of suicide by shooting.

SAYS POLICE ARE TOO INEFFICIENT

District Attorney Claims Either Crookedness or Lack of Ability in "the Finest"

NEW YORK, Sept. 17.—The direct charge that if the police have not known where Lefty Louie Rosenberg and Gyp the Blood Horowitz have been during the two months they were fugitives from justice, then they are too inefficient to be police officers, was made at the district attorney's office today.

Frank Moss, acting district attorney, and his assistants, are most bitter over the boasts of the accused murderers of Gambler Rosenthal that they have "been doing" Coney Island and the beaches all the time they have been missing and that last week on three nights they attended the Mardi Gras celebration, and were among the last to start home. With more than 700 police and a score of the supposedly best detectives on duty there, Moss wants to know why the men were not picked up, especially as they were accompanied by their wives, who are supposed to have been well known to the detectives working on the case.

EMPLOYEES GOT JOBS

WHEN STANDARD OIL SUBSIDARIES WERE PUT OUT OF TRUST MEN BECAME DIRECTORS

NEW YORK, Sept. 17.—D. F. Bushnell, president of the Indiana & Buckeye Northern Pipe Line company, and the New York Transit company, resumed his testimony today at a hearing of the litigation pending between the Standard Oil interests and the Pierce faction of the Waters-Pierce Oil company, before Special Commissioner Abram L. Jacobs.

Bushnell's previous testimony showed how the former subsidies of the Standard Oil company came to be fitted out with new directors and officers from among old and trusted employees, after the supreme court ordered the dissolution of the combine. Today he testified that in December, 1911, at a meeting of the Buckeye Pipe Line company, he was elected president and placed on the board with O. S. June, R. L. Bates, T. W. Diller and L. C. Welch. All of these men, he said, had held executive positions for some time and soon after the segregation of the oil companies had had their salaries increased.

TWO KILLED IN PHOENIX RIOT

Arizona Town Scene of Fatal Fight on Mexican Independence Day

MEXICANS KILL AN OFFICER

"Greasers" Stab Policemen Fatally and Make Off; Posses Pursue

PHOENIX, Ariz., Sept. 17.—Two persons are dead today and one other is probably mortally wounded as the result of a riot late last night which culminated in a celebration of Mexicans and Mexico's independence day. The victims are: Scott Price, a spectator, and Policeman Robert Williams, killed; Chief of Police Moore, Robert Williams, mortally wounded. Policeman J. Valenzuela is seriously wounded.

The Mexicans who did the killing fled and posses were sent in pursuit of them.

The riot grew out of a quarrel between Mexican celebrators as to who should be in charge of the celebration. Valenzuela and Williams arrested two of the rioters and were taking them to the jail when the prisoners stabbed both officers. Williams' wound is probably fatal.

Seeing the two officers fall, Chief Moore rushed to the rescue and engaged the two Mexicans, who attacked him simultaneously, plunging their knives into his body. Despite his wounds, Moore, who was lying on the ground, drew his revolver and fired several times at the Mexicans. All the bullets went wild, one striking and killing Price, standing nearby.

Immediately after Price fell, Moore was able to get to his feet and tried to pursue the fleeing Mexicans. A third Mexican ran up behind him and plunged a long knife into his back. All the Mexicans then disappeared.

Posses were quickly organized and started in pursuit of the fugitives. At last reports no trace of them had been found.

BLAMES EXCHANGE FOR LIVING COST

Tom Lawson Declares Sure Thing Stock Gambling Robs the People

BOSTON, Sept. 17.—An expose of facts regarding the financial underworld, which he says will make his charges of eight years ago seem tame and mild by comparison, Thomas W. Lawson will reopen his war on Wall street in the October number of Everybody's Magazine.

In the "Remedy" which is the caption of the work, only begun in "Frenzied Finance," Lawson will charge that the real cause of the high cost of living is sure thing gambling on the Stock exchange. He says that the people are robbed through the exchange of between two and three billion dollars annually. The closing of the exchange will be the first great object of his new attack.

Lawson predicts that the next eight years will tell whether this country is to be "dumped with the moss and slime covered ruins of Rome."

LA FARGE BREAKS EVEN IN GAMES

The Stoughton and La Farge baseball teams which played at the Viola fair last Thursday and Friday, broke even, Stoughton winning the first contest 3 to 1, while La Farge took the second game 5 to 3. As Stoughton is represented by one of the fastest semi-pro teams in the state, La Farge is highly elated over the showing made in these games.

In the two games the La Farge team made more hits and fewer errors than their opponents. The La Farge pitchers struck out more batters than their rival slab artists did, the La Farge twirlers fanning twenty-five Stoughton batters, while only ten of the La Farge men were fanned in the two games.

SIX ARE ARRESTED FOR DRUNKENNESS

Six men were arrested by the police last night, charged with drunkenness. The arrested are: John Burton, M. Kelly, Sever Johnson, P. Dunn, Frank Healey and Charles Fritz. Dunn paid a fine of \$12.50 but the others will probably serve jail sentences.

WIDOW SUES COMPANY

RACINE, Wis., Sept. 17.—The widow of Dominick Kneeba has started suit against the Pugh Canal company, demanding \$20,000 damages for the death of her husband, who was killed when a lump of coal fell from the hoisting apparatus, fracturing his skull.

ROBBERS SHOOT OFFICIAL

SAN MATEO, Cal., Sept. 17.—Two street cars were held up and robbed early today by two bandits who shot and fatally wounded City Attorney Kirkbride when he tried to draw a revolver and engage the robbers in battle. The men fled into the hills. Posses are in pursuit.

RAH RAH BOYS CLEVER SINGERS

Majestic Bill Closes with Tuneful and Beautiful Mosaic of Song and Comedy

Tuneful quartettes and choruses and a beautiful airship effect in "On the College Campus" are the big features of a classy bill at the Majestic the first part of this week. Menlo Moore's Rah Rah Boys and winsome Miss Lorna Jackson present one of the best acts that has appeared at the local house this season. It is a mosaic of beautiful songs, sung by excellent singers, built around the adventures of a college widow and her four swains. The scenic effects are beautiful, and the airship ride over the heads of the audience that closes the act is a novel feature.

Ball and West present "Since the Days of '61," introducing one of the best pieces of character impersonation witnessed on a local stage. One of the members of the team, in old man makeup, gives a side splitting delineation of a civil war veteran. There is good singing in the act, and clean comedy.

Caine and Odom, billed as the peerless patterer and the pert pianist, combine music and repartee in equal proportions for an effective act. The team was about three jokes ahead of the laugh all through their act, but made a big hit. Their fun is in the polite rapid-fire variety, which takes a nimble mind to follow it. The lady member of the team has a pleasing voice which she handles well.

Frank Seymour and Alice Robinson, present a farcical mélange of acrobatics and dialogue, that kept the house convulsed. Both are clever acrobats with new and difficult stunts.

Fred M. Griffith is a man with a ceaseless flow of talk and a smooth way of making one's eyes lie. He does tricks with cards and little balls and other things to the accompaniment of a running fire of puns and witticisms of a pungent sort.

U. S. ENSIGN ARRESTS

NICARAGUA POLICE CHIEF TERRORIZING PALACE IS DISARMED BY F. E. JOHNSON, U. S. S. DENVER

SAN JUAN DEL SUR, NICARAGUA, Sept. 17.—Ensign F. E. Johnson, commanding the landing force from the Denver, has arrested the Chief of Police at Bluefields, it was learned here today. The chief has forced his way into the governor's palace and was threatening everyone there with a revolver when Johnson arrived on the scene alone, took the weapon away from him and had him locked up.

JOHN ABRAHAM DIES SUDDENLY

John Abraham, the 7 year old son of Mr. and Mrs. N. Abraham, 218 Vine street, died of leakage of the heart at his home at 8 o'clock last evening.

Although he had been ill for several months, his illness was not thought serious, and his death last evening was sudden. He is survived by his mother, father, one sister and one brother.

The funeral will be held from the residence tomorrow afternoon at 2:30 o'clock, with Rev. Johnson officiating at the services.

HOUNDS TRAIL TRAIN ROBBERS

Masked Bandits Who Looted Registered Mail Sacks Pursued by Dogs

PASSENGERS NOT MOLESTED

Thieves Force Mail Clerks to Open Bags at Point of Guns and Escape

MEMPHIS, Tenn., Sept. 17.—Government officials left here this afternoon with bloodhounds to get on the trail of the two masked bandits who looted two sacks of registered mail on the Memphis special of the Southern railway at Stephenson, Ala., early today. A posse is already in pursuit.

The amount of loot taken is not known, but postoffice officials fear it was considerable.

The train arrived here this morning a few minutes late. None of the passengers had been molested and only a handful realized that the train had been held up. The robbers did their work quickly and escaped to the woods.

Covering the mail clerks with revolvers, the two bandits bound three of them and ordered the fourth to open all the bags of registered mail. Letters supposed to contain large sums of money were dumped into a sack. Then the fourth clerk was bound and one of the robbers pulled the emergency cord. The train stopped and when the engineer did not get the signal to proceed he walked back and found the mail clerks almost suffocated under a pile of mail bags.

A sheriff's posse was organized at Huntsville and a search of the territory surrounding the place where the men got off the train was begun.

An express car carrying great wealth was not touched by the bandits. Postoffice Inspector Nailor, who left for the scene to take charge of the pursuit, declared this afternoon that the robbers secured 36 packages of registered mail, value unknown.

DAKOTA BEATEN BY BROWNSVILLE 4 TO 3

By winning last Sunday's game by the count of 4 to 3, Brownsville captured the series between this team and Dakota, as the other games had both resulted in tie scores and the Brownsville team won the deciding game. Although Dakota led by 3 to 0 up to the eighth inning, Brownsville rallied desperately in the closing rounds and was returned the victor by a one run margin. The game was played at La Crescent. The other two games in the series ended in tie scores, the scores being 3 to 3 and 4 to 4.

SAVES ELDERLY PEOPLE FROM KIDNEY AND BLADDER MISERIES

Sleep Disturbing Bladder Weaknesses, Backache, Stiff Joints, Rheumatic Pains Disappear After a Few Doses are Taken.

While people along in years are naturally more subject to weak kidneys, they can avoid the tortures of backache, and rheumatism, and be saved the annoyance of getting up at night with disagreeable bladder disorders, for the new discovery, Croxone, quickly cures the most severe and obstinate cases.

Croxone quickly and permanently cures these conditions because it removes the cause. It is the most wonderful remedy ever devised for ridding the system of uric acid. It is entirely different from all other remedies. It is not like anything else ever used for the purpose. Pills, tablets and other medicines merely stimulate the kidneys, occasionally giving temporary relief. Croxone makes the kidneys filter the blood and sift out all the poisonous acids and waste matter that cause these troubles. It soaks right in and cleans out the stopped-up, inactive kidneys like water does a sponge, dissolves, and

drives out every particle of uric acid and other poisonous impurities that lodge in the joints and muscles and cause rheumatism. It neutralizes the urine so it no longer irritates the bladder, overcomes unnecessary breaking of sleep and restores the kidneys and bladder to health and strength, permanently and positively curing such troubles.

It matters not how long you have suffered, how old you are, or what else you have used. The very principle of Croxone is such that it is practically impossible to take it into the human system without results. There is nothing else on earth like it. It starts to work the minute you take it and relieves you the first time you use it, and all your misery and suffering soon disappear. You can secure an original package of Croxone at trifling cost from any first class druggist. All druggists are authorized to personally return the purchase price if it fails in a single case.

HIGH STUDENTS HOLD MASS MEET

Boosters Cheer Football Squad and Promise Support; Six Home Games Scheduled

A mass meeting was held at the high school this morning to arouse interest in the high school football season. The spirit of the school has taken a decided boost over what it was last year and has again taken the proportions it attained when "Firecracker" Puckett and John Wilce were here to fan the flame. Such enthusiastic yelling was never before heard here. Enthusiasm fairly electrified the atmosphere.

Mr. Elliot opened the meeting with a number of his witty remarks which livened up the spirits of everyone and then Kenneth Salzer and Ken Dickens assisted by "Boots" Weimar led the mass in cheers and songs in a very able manner. Boots, with his original style of leading the locomotive, will be missed this year as he leaves for the university soon.

Mr. Seller was called upon for a speech and he certainly "delivered the goods." He has a personality that radiates the do or die fight spirit which is being instilled in the football men and the entire school. Captain Wiebrecht was then called on and he said that La Crosse would surely win the state championship if the students would only stay with the team and cheer them on whether they were losing or winning.

The following teams will play at La Crosse this season: Tomah Indians, Fort Atkinson, Sparta and probably Baraboo and West Division Milwaukee. La Crosse will play at Tomah, Madison and Eau Claire. This is a schedule that with the normal game offers at least six good games at home.

said Manning today, "Bryan included, and I never saw the crowds so big or the enthusiasm so genuine. Even the crowds Mr. Bryan got in 1896 don't beat the way they're turning out now to see Governor Wilson. I knew this trip had not been advertised the way we used to advertise Mr. Bryan. I knew we were to be on a regular train that would not stop except on schedule and that wouldn't stay anywhere more than a minute or two. Yesterday our train was from an hour to an hour and a half late and I didn't expect anybody would be waiting to see the governor, yet they were there at every town."

TERRE HAUTE, Ind., Sept. 17.—"The progressive sentiment is very pronounced all over the western and southern states, and there is no doubt that so far as Roosevelt and Taft are concerned, the latter is entirely out of the race," declared Eugene V. Debs, the socialist candidate for president, today.

TUCSON, Ariz., Sept. 17.—The calling of an extra session of congress for immediate enactment of laws in the District of Columbia and Alaska, covering the social and industrial justice planks in the progressive platform was the pledge given by Col. Roosevelt here today.

To Increase Avoirdupois. Among many peoples fat is considered a sign of beauty and should this not come, naturally artificial means are resorted to. In Egypt the women burn and grind up black beetles and mix them with beef fat, sesame oil and muffed. This mixture is boiled together and a cupful of the liquor taken daily by women desirous of getting fat. In England in the middle ages the ladies used the fat of the lizard when desirous of becoming stout.

Deadly Glasses. A contrast to the Venetian glasses which were popularly supposed to fly to pieces if poisoned liquor were poured into them, were glasses which poisoned all who drank from them. The poison was crystallized at the bottom of the glass, from which it was indistinguishable, and as it dissolved very slowly it could be used many times with deadly effect. Some such glasses can be seen at the British museum.

Public and Private Duties. Generally we are under the impression that a man's duties are public, and a woman's private. But this is not altogether so. A man has a personal work or duty relating to his own home, and a public work or duty—relating to the state. So a woman has a personal work and duty relating to her own home, and a public work and duty which is the expansion of the other—relating to the state.

Not to Be Driven Away. A little city miss was visiting in the country and strayed out into the field one day where there were a few lambs. Exasperated by the incessant bleating of one of the lambs, she stamped her foot and said: "You can tell your ma-a and your pa-a and your family; I've got as much right here as you, and I'm going to stay—so there!"—Delinquent.

Occupying. Dressing dolls has become the serious business of a great many people, but especially of American men.—Puck.

MILITARY FUNERAL GIVEN RECRUITS

Six Who Died in Lake Off Lake Bluff Accorded Full Honors in Last Services

WAUKEGAN, Ill., Sept. 17.—A military funeral service was held today at the United States naval training station for six of the men who were drowned Sunday when a sailing launch containing twenty-four apprentices overturned off Lake Bluff. Those for whom the service was held were J. L. Lindsey of St. Louis, Mo.; W. E. Antrobus, Indianapolis; John Wallace, Turner, Ind.; R. C. Harlan, Bloomington, Ind.; Walter E. Southworth, Pittsburg, Pa., and F. F. Winkler, Chicago.

Preparations were made after the ceremony to ship the bodies home at the expense of the navy department. The parents of John A. Patton, Canton, Ohio, and Walter E. Negus, chief gunners' mate, of Attleboro, Mass., who died trying to make his third rescue, have not yet been heard from.

Three apprentices were still missing today. They are R. L. Field, W. W. Woodward, Warsaw, Ind., and J. W. Bauld, Beardstown, Ill. Sailors from the training station and soldiers from Fort Sheridan were patrolling the beach in the hope of locating the bodies of the missing three.

The board of inquest appointed by Captain W. M. Fullam, commandant at the station, found that no one was to blame for the accident. Further investigation will be made within the next few days by a court of inquiry appointed on orders from the secretary of the navy.

It is feared the girl will lose her hand.

TRUST LEADERS NOT ON STAND

McCormick, Deering and Perkins Not Allowed to Testify and Gain Immunity

WASHINGTON, Sept. 17.—When the government's questioning of International Harvester witnesses was resumed, it was expected that the details of the forming of the \$140,000,000 combine to control the manufacture and sale of Harvester machinery would be obtained more fully than during yesterday's questioning of Clarence S. Funk, general manager, and William H. Jones, vice president of the big corporation.

The government planned to call John J. Glessner, president, and William M. Gale, E. N. Wood and Alexander Legg, subordinate officers, but the list of witnesses so far made public does not include Geo. W. Perkins, Harold F. McCormick or Jas. Deering, all of whom have been heavily interested in the merged companies. It is believed, although the government's attorneys would not verify it, that they are not going to be given an opportunity to testify before the master, because such testimony would grant them immunity in case the government later attempted to push criminal action against the moving spirits in the Harvester trust.

WHEN THE SKIN BREAKS OUT USE POSLAM

If suffering from any skin affection, it is important for you to know that on your druggist's shelf, in the form of a box of Poslam, lies the concentrated healing power which will ease all physical distress and effect a complete and permanent cure.

With this ready means of relief so easily available there is really no reason why eczema, acne, tetter, barbers' itch, pimples and like affections should be allowed to go unchecked and their discomforts unnecessarily endured. First application stops the itching, the skin rapidly heals and is restored to normal condition.

POSAM SOAP is antiseptic and germicidal; the safest and most soothing nursery soap. It improves the health, color and quality of the skin; beautifies complexion, renders the hands soft and velvety.

Chas. A. Beyschlag, C. N. Euler, Heber & Co., and all druggists sell Poslam (price, 50 cents) and Poslam Soap (price, 25 cents). For free samples, write to the Emergency Laboratories, 32 West 25th Street, New York City.

RACERS TRY OUT MILWAUKEE TRACK

Speed Demons Today Get First Trial Spins Over Vanderbilt Cup Course

MILWAUKEE, Wis., Sept. 17.—With soldiers of Company D, First regiment, guarding the course, speed demons with their racing cars went out for preliminary trials today on the Wauwatosa road course over which the annual Vanderbilt cup races will begin here Friday. Official Starter Fred Wagner with a corps of assistants was in charge of the tryouts and noted carefully the performance of the various drivers.

Bob Burman, who arrived here yesterday with his big Benz car, did not try out the course today. He will inspect the turns during the afternoon and take his trial spins tomorrow. Ralph de Palma, Hughie Hughes, Teddy Tetzlaff, Spencer Wishart, Ralph Mulford and several others limbered up their cars.

A record crowd of 150,000 people is expected to attend the three day speed carnival, according to the promoters today. Seat sales already to the tune of \$55,000 and reservations are pouring in from all parts of the country.

CHAPTER 227.

An act to amend section 12 of the statutes, extending the right of suffrage to women.

The People of the State of Wisconsin, represented in Senate and Assembly, do enact as follows:

Section 1. Section 12 of the statutes is amended to read: Section 12. Every person male or female of the age of twenty-one years or upwards, belonging to either of the following classes, who shall have resided in the state for one year next preceding any election, and in the election district where he or she offers to vote ten days, shall be deemed a qualified elector at such elections:

1. Citizens of the United States.

2. Persons of foreign birth who, prior to the first day of December, A. D. 1908, shall have declared their intention to become citizens conformably to the laws of the United States on the subject of naturalization; provided that the rights hereby granted to such persons shall cease on the first day of December, A. D. 1912.

3. Persons of Indian blood who have once been declared by law of congress to be citizens of the United States, any subsequent law of congress to the contrary notwithstanding.

4. Civilized persons of Indian descent not members of any tribe.

5. Any civilized person being a descendant of the Chippewa of Lake Superior or any other Indian tribe, residing within this state, and not upon any Indian reservation, who shall make and subscribe to an oath before the clerk of the circuit court or his deputy of the county where such person resides, that he or she is not a member of an Indian tribe, and has no claim upon the United States for aid and assistance from any appropriation made by congress for the benefit of Indians, and that he or she thereby relinquishes all tribal relations, and all right to claim or receive such aid, shall be entitled, on such oath being filed and recorded, to vote at all elections held in this state, if he or she is otherwise qualified. The oath so taken, on being corroborated as to the residence and tribal relations of such person by the affidavit of a qualified elector, shall be filed in the office of the clerk before whom it was taken and recorded by him in a book to be provided for that purpose, upon such person paying to said clerk the sum of one dollar.

6. No person under guardianship, non compos mentis or insane shall be qualified to vote at any election, nor shall any person convicted of treason or felony be qualified to vote at any election unless restored to civil rights.

Section 2. The question whether the foregoing provisions of this act shall take effect and be in force, shall be submitted to a vote of the people of this state, in the manner provided by law for the submission of an amendment to the constitution, at the next general election to be held in November, 1912. If approved by a majority of all the votes cast on that subject at such election, it shall take effect and be in force from and after such approval by the people; otherwise it shall not take effect or be in force. Upon the ballot shall be printed, "Shall Chapter . . . (insert on the ballot the number of chapter) of the laws of 1911, entitled 'An act extending the right of suffrage to women' be adopted."

Section 3. This act shall take effect and be in force from and after its passage and publication.

Approved June 2, 1911.

Cat Raised Brood of Chickens.

A cat on a farm near Harrisburg, Pa., lost her litter of kittens and in place of them adopted a brood of nine chickens which she successfully raised by bringing food for them and cuddling close to them at night.

Words of Weight.

"The ancients used to write in clay and then bake it." "Yes," replied the man who was reading the latest speech. "In those days when they spoke of hurling epithets at a man it meant something."

The Most Creditable Episode in All American History

APRIL, 1865.—Came a time when Lee having only the wreck of that proud array which had dealt the Union Army so many crushing blows hurried West to seek an avenue of escape. Grant urged the pursuit without pause; while Sheridan hung on Lee's flanks with untiring energy that knew no rest.

Food failed the Confederates; if they stopped but a moment the noise of pursuing horse dinned their ears. At last Sheridan's cavalry were planted squarely before Lee's front. Lee at the head of his half-starved troops ordered a charge. With the courage of the bravest they obeyed. . . . The opposing cavalry moving aside revealed dense bodies of infantry in battle line.

Then it was that the Civil War was about to end in one of the bloodiest tragedies of time. The Confederates, with a rallying of their old-time courage, threw themselves forward. It was but momentary—the advance was stopped. . . . then they turned homeward, no longer Confederate soldiers, but American citizens.

The complete story of Appomattox—the most creditable episode in all American history—is pictured and described in Section 16 of the Brady War Photographs. In this section you also see the scenes leading up to the great surrender. You watch the sharpshooters at Petersburg—where "Yank" pickets from "Fort Hell," and "Reb" pickets from "Fort Damnation," drew the bead on each other at only 50 yards. You learn of Lee's ride among his veterans when he knew that surrender was inevitable—the tears streaming down the faces of the men who went with him through the battles of the Wilderness, Spotsylvania and Cold Harbor without flinching.

All the intimate scenes come before you—you look upon the faces of the generals who met and arranged for the surrender of Lee and the Confederates at Appomattox: Grant, Rawlins, Porter and the rest. It is intensely interesting—educational—inspiring—this

Get Your Missing Numbers NOW or Get the ENTIRE SERIES

The value of the Brady War Pictures lies not only in their personal appeal, but in the fact that they were the only photographs ever taken while a real war was in progress. No words can describe, no painting of the artist can depict the actual scenes. Brady photographs are the only pictorial story of the great conflict from Bull Run to Appomattox. Only in this great compilation can you witness the scenes that welded the Republic into a mighty nation.

And, now—the last section—No. 16, is ready. You can complete your collection by adding this or any other section still lacking. Or, if you have thus far neglected to obtain any of the series, you can get the full set of sixteen sections for only \$1.60. The single sections may be had at ten cents each.

FAN-ATICAL FANCIES

A city league composed of four local baseball teams to play on Sundays and holidays is being agitated for 1913 and should the organization materialize there is no doubt but that there would be much interest taken in the combats and all the fans would be well pleased with this arrangement. For some time this year there have been various rumors to the effect that such a league would be organized next year and the plan seems to have met with the instant approval of local teams and fans.

Although no definite plans for the new league have as yet been made, the teams which have been spoken of as members of the league are the Nelson Clothing company and the Athletics and the La Crosse Clothing company of the south side. In this way the strongest teams in the city would be in the organization and a high class article of baseball would be furnished the fans. With a schedule which would begin in May and continue until about the first of October, there is no reason why a league of this kind would not be a success. There would be double headers each Sunday and holidays and local people would be greatly interested in the result of the games as La Crosse boys would be playing on the teams and this would lend interest to the games. Why would a league of this kind not be a success when it is certain that La Crosse people want it and are interested in the national pastime?

Of course there would have to be a head of the league and who would be more capable to hold the office of president than John A. Elliott? The choice of Mr. Elliott for the presidency of the league would make it certain that the affair would make a success for he is a practical baseball man who has demonstrated his ability to head a league more than once. Certain it is that his election would meet with the approval of the players and managers and the fans have so much confidence in his ability that he would undoubtedly be their choice also. If Mr. Elliott would accept the presidency of this league there is no doubt but that its success would be assured.

That Charlie Watson's pitching ability is thought well of is evident by the fact that the Chicago White Sox wanted to draft him from Milwaukee but they could not as he was secured from Oshkosh and reported to the Brewers twenty days before the close of the state league season. This makes the former local pitcher ineligible for draft and means that he will have to remain with Milwaukee for another year.
